

INDEX TO VOLUME XVI

Besicovitch, A. S. On the Definition and Value of the Area of a Surface	86
Cooper, J. L. B. The Spectral Analysis of Self-Adjoint Operators .	31
Davies, E. T. Motions in a Metric Space based on the Notion of Area	22
Daymond, S. D. Some Solutions of the Hodograph Equation governing the Two-Dimensional Flow of a Compressible Fluid	78
Fuchs, W. H. J. A Theorem on Hausdorff's Methods of Summation	64
Guinand, A. P. Gauss Sums and Primitive Characters . . .	59
Hardy, G. H., and Rogosinski, W. W. Notes on Fourier Series (III): Asymptotic Formulae for the Sums of Certain Trigonometrical Series	49
Rogosinski, W. W., see Hardy, G. H.	
Taylor, P. R. On the Riemann Zeta Function	1
Titchmarsh, E. C. On Expansions in Eigenfunctions (VII) .	103
— On Expansions in Eigenfunctions (VIII)	115
